\*\*\*Permit may be required, contact the agency for details.

**Alberta Permit Regulations**

An **ELECTRICAL PERMIT** is required to install, alter or add to an electrical system. A permit is not needed for the replacement of electrical equipment with units of a similar type if the replacement is made for the purpose of maintaining the system and does not modify the ratings or characteristics of the electrical installation.

A **GAS PERMIT** is required to install, alter or add to a gas system. A gas permit is not needed for the replacement of a dryer, range, water heater or space heating appliance if it is located in a single family residential dwelling and no design change is required to any gas piping or venting system.

A **PLUMBING PERMIT** is required to install, alter or add to a plumbing system. A plumbing permit is not needed to change a fixture, water heater, faucet, trap or valve if a design change to the piping system is not required **OR** to install plumbing fixtures in a single family residential dwelling if roughed-in piping has been completed under another permit.

To obtain an electrical, plumbing or gas permit application contact Inspections at 403-346-6533 or visit [www.ijd.ca](http://www.ijd.ca) to download a permit application
