

# MAYOR'S MINUTE

Excitement is being felt throughout our community to a degree that has not been seen in a many years. This is being driven by members of our community who have chosen to become enthusiastically engaged in what Blackfald's future will be.

Our Dual Ice Development Society along with the Library, and Recreation boards have been active participants in the plans for our new Multi-Plex Twinned Ice

surface and Library. The plans, unveiled in a very successful open house, can also be seen on the Town web site. These are facilities that are being designed to meet the needs of our community, now, and well into the future. Once built they will demonstrate how innovation and imagination stimulates growth and pride in a community.

Hats off to our Economic and Development committee. Over the next few months the work this committee has done over the past year is going to pave the way for exciting new ideas and opportunities in Blackfalds.

The major element that is tying groups together is Optimism. When you talk to our citizens, young and older, they are looking for and expect a better Blackfalds. I think it is more important than ever to strategically plan projects that will put back into the community much more than they will cost. When achievement of bragging rights equals, the provision of services and opportunities that are needed and wanted, this equation is a one that we can all be proud of.

Feel free to call any time.

*Richard Poole*

Mayor of Blackfalds

October 2019
